THURSDAY BYENING, DEC. 22.

SINGULAR Accident .- A singular accident occurred in Richmond Tuesday morning on the connecting track between the Richmond and Danville and the Richmond and York River Ballroads. A train of freight care was being transferred from one depot to another, when by some defect in a switch, nearly the whole train was turned off on a siding, leaving the engine and several cars on the main track. The concussion caused the throttle-valve of the engine to be throw a open, and it being out of the power of the engineer to remedy the evil, the engine started off at a terrible speed down the track along the street, crashing into two wagon terms, and stilling four makes. It continued its frients. and killing four mules. It continued its fright-ful course through the lower part of the city, and for nearly three miles outside the corporate timits, when the bursting of a flue gave ereage to the steam and stopped the engine. The en-gineer had jumped off when he found he had lost control of his engine, but the freman and a little boy remained on the engine and escaped injury.
